- WordPress Developer Intern
Advnit Web Solutions , West Bengal
28/10/2024 – 28/04/2025 (6 months)

TRAINING

- MERN STACK (2025-2026)
Weavers Web Academy, Kolkata

PROJECTS

TaskManagement Application

Developed a full-stack task management application using MongoDB, Express.js, React.js, Node.js, and Redux Toolkit to help users efficiently manage daily tasks. Implemented secure user authentication with email verification and login functionality. Designed and integrated APIs for task creation, updating, deletion, and retrieval. Utilized Redux Toolkit for efficient global state management and seamless data flow across components. Added task filtering features based on completion status and priority to improve usability. Built a responsive and user-friendly interface, ensuring smooth frontend-backend integration and consistent performance across devices.

Ecommerce Application

Developed a scalable full-stack e-commerce platform using the MERN stack with secure authentication, product management, cart, order processing, and checkout functionalities. Built RESTful APIs for efficient frontend-backend communication and integrated Cloudinary for image uploads and media management. Implemented payment gateway integration for secure online transactions and optimized MongoDB database operations for improved performance and scalability. Designed a responsive and user-friendly interface with complete frontend-backend integration to deliver a seamless shopping experience.
